

Ahmed Zerabib

< Full Stack Developer />

Full Stack Web Developer with 3+ years of experience crafting modern, performant, and intuitive web applications. Specialized in the Vue / Laravel ecosystem, with a strong eye for design and a commitment to clean, maintainable code. I turn ambitious ideas into polished digital products.

EXPERIENCE

● Freelance Full Stack Developer 2025 – Present

Self-Employed · Remote

Building custom web solutions for clients globally — from e-commerce platforms to SaaS dashboards and custom business tools. Delivered 20+ projects with a focus on performance, exceptional UX, and scalable architectures. Handle the full lifecycle: discovery, design, development, deployment, and post-launch support.

● Full Stack Developer 2024 – 2025

Dex Agency

Led development of complex SPA and SSR applications using Nuxt and Laravel. Improved Core Web Vitals and performance metrics across client projects, and mentored junior developers on modern web practices, component architecture, and clean code principles.

● Full Stack Developer 2023 – 2024

OwlStack Agency

Developed and maintained full-stack web applications with Vue.js and Laravel. Collaborated closely with design teams to deliver pixel-perfect client projects on time, contributing to both frontend and backend architecture decisions.

EDUCATION

● High Technician Diploma — Web Development & Multimedia

2023

Specialized diploma covering modern web technologies, UI/UX design, and digital media production.

● License — Mathematics & Informatics 2022

Bachelor's degree combining mathematics and computer science fundamentals — building a strong analytical foundation for software engineering.

— STRENGTHS

- Problem Solver
- Clean Code Advocate
- UX-Focused
- Detail-Oriented
- Fast Learner

I'm a **generalist developer** — I don't box myself into a single niche. If you can imagine it, I can build it. From polished marketing sites to full-blown custom web platforms, every project starts from a blank canvas and is tailored to exactly what the client needs.

E-commerce Platforms

Full online stores with product management, cart, checkout, admin panel, and payment/delivery integrations.

Custom Web Applications

Bespoke SaaS tools, dashboards, booking systems, and internal business apps — built from scratch to your exact spec.

Landing Pages & Portfolios

Fast, animated, SEO-ready marketing sites designed to convert visitors and make a strong first impression.

Full-Stack Engineering

API design, database architecture, authentication, admin dashboards — the complete backend stack to power your product.

FEATURED PROJECTS

ByBens

Vanilla JS · Apps Script · Cloudinary

E-commerce supplements store with a custom-built admin panel, multilingual storefront (EN/FR/AR), and Google Sheets backend.

bybens.com

Bright Smile

React · Express · PostgreSQL

Responsive dentist web app with a complete appointment reservation system, secured with modern authentication patterns.

bright-smile-chi.vercel.app

Golden Look

Vue.js · Laravel

Minimalist jewelry e-commerce platform with full admin dashboard and inventory management.

golden-look.vercel.app

NinaElle & VIPmode

Vue · Apps Script

Two complete stores: Arabic RTL skincare boutique (NinaElle) and French men's shoe store (VIPmode), both with admin panels.

Delivered · Private clients
